What is Community Education?

- The definition of community education as developed by the AONTAS Community Education Network. Explanation, trailer of programme and downloadable leaflet.

Television Programmes on Community Education

- "Beyond the Classroom" is a set of three television programmes (7 episodes in total) that provide an insight into the area of community education. The programmes have been produced by Dublin Community Television (DCTV) in partnership with the AONTAS Community Education Network from funds obtained through the Broadcasting Authority of Ireland's Sound and Vision programme. The programmes focus on the history of community education, examples of practice and the learners' perspective. You can watch each of the programmes online. Use these programmes to learn more about community education, as an educational tool with your learners, as part of the professional development of community education workers.

National Community Education Network Meetings

- Full reports from all 9 previous meetings of the community education network and details of the next set of meetings.

Resource materials for the Community Education Network

Lobbying and Promotion Work

- Draft Position Paper on a Funding Mechanism for Community Education
